Engineering

Extremely powerful engines, innovative and patented solutions for measurably higher efficiency.

Innovation

Creators of the first two-speed angle grinder and pioneers in the industry.

Sustainability

Eco-design and long lifespan for a lower carbon footprint.

Ergonomic

Internationally awarded solutions have become industry standards.

Spare Parts

Over 2000 original spare parts. High-quality service and accessories.

Refurbished

Program of 100% factory refurbished tools with a one-year warranty.

Power to Professionals Since 1936

Developed and manufactured by ATech elektronika d.o.o., Bač pri Materiji, 6242 Materija, Slovenija - EU

PERLES®
Power to Professionals

Professional Power Tools by Perles

CERTIFIED • MADE IN SI-EU

perles.com

Professional electric tools for metalworking, woodworking, construction, car detailing, and maintenance, as well as low-voltage power tools for challenging work environments and tasks.

Metalworking

Grinding, sharpening, polishing, cutting, drilling, sheet metal tailoring

Construction

Grinding, drilling into concrete, mixing materials

Car Detailing

Polishing, cleaning, impregnation

Woodworking

Profiling, joint making, cutting, grinding, drilling

Low Voltage

Tools for extremely wet, humid, and highly humid environments

Maintenance

Tools for pressure cleaning, impregnation, wet-dry vacuuming

Patented 360° rotatable protective shield

angle grinders

Adjustable ergonomic handle, movable shield, and high impact resistance

concrete grinders

Safety clutch against overload protects from damage

industrial drills

plunge routers

circular saw

pressure sprayer

Cemented carbide inserts for long tool life

chamfering machines

Soft Start gentle start and gear housing made of aluminium alloy

angle polishers

Spindle lock for quick accessory change, two drilling speeds

impact drills

wall chaser

magnetic drill

wet-dry extractor

The lightest universal drill for metal, wood, and building materials

universal drills

Micro impact mechanism with a patented ball clutch

crown drill

Extended aluminium slender shaft for working in hard-to-reach places

die grinders

shaft vibrator

Lightweight ergonomic design, combination of power and torque for higher productivity in mixing volumes from 30 to 90 liters.

TREND

mixers

Exceptional Motor Power

High motor power ensures efficient tool use and time savings. Innovative and patented solutions bring energy and time savings.

Durable Housings

Motor casings made of polyamide, reinforced with 30% glass fibres, ensuring high impact resistance.

Durable Gears

Milled steel gears with exceptional wear resistance and low friction ensure reliable use and significantly extend the tool's lifespan.
